Aircraft History Report

N12345

1978 CESSNA 172N

Registration: V

Registered owner: GUTTERMAN ADAM D

Trailing 12-month utilization (observed)

Detected flights: 87

Observed flight time: 111 hr

Estimated distance: 16130 NM

Airports visited: 5

Median duration: 1h 03m

How this aircraft appears to be used

N12345 has 87 detected flights and approximately 111.2 observed airborne hours over the trailing period, visiting about 5 airports. KADS appears to be a frequent operating base based on detected departures and arrivals.

Median detected flight duration was about 63 minutes. These figures reflect available third-party observations and may be incomplete.

Registration & ownership

FAA records show N12345 currently registered with status V. Registered owner information is GUTTERMAN ADAM D. The current registration certificate issue date on file is 20170822.

Questions worth investigating

Utilization change

Detected flight activity increased substantially in the more recent half of the period. Consider understanding whether ownership, mission, or operating environment changed.

Flight activity is based on available third-party observations and may be incomplete. Not an official aircraft record, title opinion, or airworthiness determination. Generated 2026-09-18T00:04:03.044Z.
